

SERVING THE LYME COMMUNITY FOR OVER 100 YEARS

THE LYME SCHOOL

Newsletter

Get involved in sustaining the goodness that exists in our community

Saturday, May 7th

What many of us have come to appreciate about Lyme and many have moved to Lyme to experience for themselves does not happen by accident. It happens because we make the choices that promote it, live it and share it with others. On Saturday, May 7th the Lyme Collaborative (an organization established by the Lyme School and the Converse Library) and CommunityCare of Lyme are organizing a "Day of Service". Together along with the support of many of Lyme's organizations and businesses we are hosting a community breakfast followed by service opportunities to help others in and around our community. An online site has been created to allow everyone to sign up for specific service projects including a sign up for Lyme's annual GreenUp effort for cleaning up Lyme's roads

The sign-up link is: cclyme.org. Then Click on the Lyme's Day of Service logo in upper right.

The day starts with an 8:30 am community breakfast at the Lyme School before everyone heads out to complete projects during the morning.

If you know someone who does not have email and would like to volunteer or request a project at their home, the CCL phone number is: 795-0603 (Sarah Shipton, CCL Program Director).

Lyme's Day of Service

Want another opportunity?

VOLUNTEERS

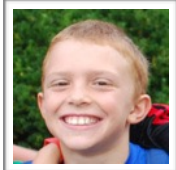

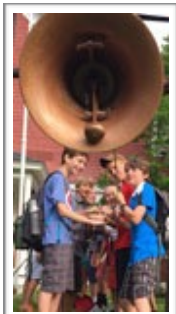

**Help us broaden our K-4 Science program!
Volunteer to be a Science Program Facilitator.**

If we are able to find 6-8 individuals who can commit 3-4 hours a month (including training) and facilitate K-4 science activities in our classrooms, we can expand what experiences we provide our students and involve others in their education. This effort would be accomplished through a partnership with the

Four Wind's Nature Program which is currently working with the Peirmont School.

Four Winds' Nature Program provides monthly two-hour natural science workshops for adults interested in sharing their love of nature with school children. Following these volunteer training workshops, teams of volunteers go into the K-6 classrooms for 1 - 1 1/2 hours a month to teach children. With engaging indoor and outdoor activities and explorations, adults give young students an opportunity to study nature in their own schoolyard and neighborhood. Children learn important science concepts and practice science skills such as asking questions, making observations, recording data, and communicating information.

This is part of a continued effort to bring more science into the Lower School program as well as involving community members in our classrooms. In the past we have also partnered with the Montshire Museum and other local science organizations and, we hope, like those partnerships this effort will engage the hands, minds and curiosity of our students. Be a part of it. If you are curious, enthusiastic and love kids (and love to get messy) you have what it takes! Science ROCKS!

WANTED

Got extra syrup or chickens that could spare a few eggs for the breakfast?
Contact Jeff Valence 795-2125
(we need them for the Day of Service Breakfast)

Would you be willing to be a crew chief for one of the jobs (or do you have a High School student you want to volunteer for the job).
Contact Sarah Shipton 795-0603

School Calendar

Dates we know of so far:

- Spring Concert** May 12th 6pm
- 8th grade DC Trip** May 16 -20
- Science fair** May 18 6:30pm
- 6th grade Boston Trip** May 20
- Maypole** May 26 12:30
- No school May 27 & May 30**
- Awards Night** June 6 at 6:30pm
- Baccalaureate** June 7 at 6:30pm
- Graduation** June 9th
- Last Day of School** June 10

Lyme Nursery School has a few remaining spots for the 2016-2017 school year, and we encourage interested parents to enroll soon!

Lyme Nursery School is a non-profit nursery school dedicated to promoting the social, emotional, physical, intellectual, and artistic growth of our young students. We do this through embracing the individuality that each student possesses to allow them to achieve their highest potential during their Lyme Nursery School experience. We foster play-based education and enthusiastically encourage outdoor physical activity and exploration. The aim of our highly-qualified and caring staff is to make every child's time at Lyme Nursery School as comfortable, safe and enjoyable as possible.

We currently offer three programs:

- Cubs: 2 – 3 year olds
- Bears: 3 – 4 year olds
- Lions: 4 – 5 year olds

Our school opens at 8 am and we also offer an affordable extended pre-school program for Bears and Lions until 4pm each day.

We encourage parents to come take a tour of our little red school and see our center in action! Call 603-795-4567 to schedule a tour. For more information on our programs and curriculum, and to obtain registration forms, please visit www.lymenurseryschool.org, call us, or email our Executive Director Kelly Downing at director@lymenurseryschool.org.

Openings can fill quickly at this time of year, so don't wait to enroll your child now for an outstanding early childhood education experience!

Message from Hanover Football Boosters:
Interested in youth football? Below is a list of football clinics available to youth. There is no contact, there will be Patriot players there, and there are scholarships available.
